VACCINE MANDATE NEWS:

In welcome news for freedom loving Americans everywhere, a U. S. District Court judge has temporarily halted adverse action against thousands of Air Force and Space Force members with religious conscience objections to mandatory COVID 19 vaccinations. STARRS is raising funds to aid those with objections to the vaccine and who need financial aid. For those who wish to help in this noble cause, please visit our [website](#) below and use the donate button. See the full story about the court injunction at the link below. STARRS applauds this action to protect Air and Space Force personnel and Air Guard with verified religious exemption requests pending from having adverse action taken against them. It is STARRS' view that the Covid 19 vaccine mandate is a violation of individual religious freedom rights under the 1st Amendment and a violation of individual rights under the Religious Freedom Restoration Act.

An immigrant with a few dollars in his pocket 37 years ago, Professor Hill can attest to the American dream being alive and well for those willing to work hard and persevere against whatever residual racism that might still exist in America. Hear Dr. Hill's candid assessment of a failed and captured academia to the far left that wants to remake America and by doing so, destroy her. Dr. Hill's insight into how false values attached to race itself is a major impediment to millions who needlessly struggle to get ahead by clinging to a failed racism model and its acolytes.
