The global infectious disease diagnostic market was valued at \$23.321 billion in 2020, and is estimated to reach \$39.941 billion by 2030, growing at a CAGR of 6.8% from 2021 to 2030.

An infectious disease is any disorder that is caused by various microorganisms such as viruses, bacteria, fungi, or parasite. Hepatitis, human immunodeficient virus (HIV), healthcare-associated infection, surgical site infection, pneumonia, influenza, and COVID-19 are some of most prevalent infectious diseases across the globe. Infectious disease diagnostics involves procedures to detect and identify the causative organism for appropriate treatment and management of infectious diseases. The most common diagnostic tests for infectious diseases are laboratory tests, imaging scans, and biopsies. Other advanced diagnostic tests for detection of infectious diseases are immunochromatographic tests, point-of-care diagnostic tests, and

next-generation sequencing test.

The factors that drive the growth of the global infectious disease diagnostic market include increase in the number of diagnostic laboratories, advancements in diagnostic instruments, and surge in demand for point-of-care diagnostic tests. In addition, rise in prevalence of infectious diseases such as hepatitis, pneumonia, HIV, healthcare-associated infection, & COVID-19 notably contributes toward the growth of the global market.

Which market perspectives are enlightened in the Infectious Disease Diagnostic market report?

Executive Summary: It covers a summary of the most vital studies, the Worldwide Infectious Disease Diagnostic market increasing rate, modest circumstances, market trends, drivers and problems as well as macroscopic pointers.

Study Analysis: This covers major players, vital market segments, the scope of the products offered in the Infectious Disease Diagnostic market, the years measured and the study points.

Competitive Analysis: In this segment each player is screened based on a products, services, value, SWOT analysis, growth and other significant features.

Geographic Analysis: This Infectious Disease Diagnostic market report analyses data on the basis of production, sales, imports & exports, and key players in all regional markets.

Infectious Disease Diagnostic Market Segments and Sub-segments::

Infectious Disease Diagnostic Market by Key Players: Abbott Laboratories, Becton Dickinson and Company, BioMerieux SA, Bio-Rad Laboratories, Danaher Corporation, F Hoffman-La Roche, Hologic Inc., Luminex Corporation, Qiagen Inc., and Thermo Fisher Scientific Inc.

Infectious Disease Diagnostic Market By Product: Assays & Reagents, Instruments, and Software

Infectious Disease Diagnostic Market By Disease Type: Hepatitis, Human Immunodeficiency Virus, Influenza, and Others

Infectious Disease Diagnostic Market By Technology: Immunodiagnostics, Clinical Microbiology, Polymerase Chain Reaction, Next Generation Sequencing, and Others

Interpretative Tools Used in Market Analysis: The methodical tools including SWOT analysis, Porter's five forces analysis, and investment return examination were used while breaking down the development of the key players performing in the market.

Growth Indicators in the Market: This section of the report covers the indicators that contains mergers & acquisitions, R&D, new product development, joint ventures, and associations of leading participants working in the market.

Key Questions Answered:

Who are the leading players involved in Infectious Disease Diagnostic Market?

Which are the major regions covered in Infectious Disease Diagnostic Market report?

Which is the leading revenue-generating region in Infectious Disease Diagnostic Market?

Which is the most influencing segment growing in the Infectious Disease Diagnostic market report?

What are the key trends in the Infectious Disease Diagnostic market report?

What is the total market value of Infectious Disease Diagnostic market report?

Table of Content

Chapter One: Industry Overview

Chapter Two: Major Segmentation (Classification, Application and etc.) Analysis

Chapter Three: Production Market Analysis

Chapter Four: Sales Market Analysis

Chapter Five: Consumption Market Analysis

Chapter Six: Production, Sales and Consumption Market Comparison Analysis

Chapter Seven: Major Manufacturers Production and Sales Market Comparison Analysis

Chapter Eight: Competition Analysis by Players

Chapter Nine: Marketing Channel Analysis

Chapter Ten: New Project Investment Feasibility Analysis

Chapter Eleven: Manufacturing Cost Analysis

Chapter Twelve: Industrial Chain, Sourcing Strategy and Downstream Buyers
