

Global Foundation, Structure, And Building Exterior Contractors Market Growth Trajectory

Foundation, Structure, And Building Exterior Contractors Market Research Report by TBRC covers market size, drivers, key players, and the impact of COVID-19.

LONDON, GREATER LONDON, UK,
August 18, 2022 /EINPresswire.com/ --
As per The Business Research Company's "Foundation, Structure, And Building Exterior Contractors Global

Market Report 2022", the [foundation, structure, and building exterior contractors market share](#) is expected to grow from \$1067.72 billion in 2021 to \$1175.80 billion in 2022 at a compound annual growth rate (CAGR) of 10.1%. The growth in the foundation, structure and building exterior contractors market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The foundation, structure, and building exterior contractors industry growth is expected to reach \$1652.46 billion in 2026 at a CAGR of 8.9%. A rapidly growing urban population is expected to increase the demand for new residential and commercial land, during the forecast period.

Key Trends In The Foundation, Structure, And Building Exterior Contractors Market

Contractors are offering building-integrated photovoltaic (BIPV) glazing technology for generation of electricity. A BIPV system consists of solar cells or modules that are integrated into building elements or material as part of the building structure. Traditionally used photovoltaic systems are found on rooftops which have small surface areas. Whereas BIPV photovoltaic cells are integrated directly into cladding materials, shingles or windows enabling almost any building component including the roof, façade, windows, canopies or balcony railings to generate solar electricity. Thus, BIPV installed buildings can self-generate a larger portion of their electricity
