

Dermocosmetics Market to See Booming Growth 2022-2030 | Procter & Gamble, Johnson & Johnson, Unilever, Galderma, L'Oréal

Rising demand for customized skin care products is a key factor driving dermocosmetics market revenue growth

VANCOUVER, BC, CANADA, August 18, 2022 /EINPresswire.com/ -- According to the most recent analysis by Emergen Research, the size of the worldwide [dermocosmetics market](#) was USD 53.69 billion in 2021 and is anticipated to grow at a revenue CAGR of 7.07% during the projected period. Some of the factors influencing the market revenue growth include the rising demand for individualised skin, scalp, and hair care products and sizable investments made by many large cosmetic and pharmaceutical firms for the creation of novel and improved skincare solutions.

The breakdown of skin collagen and elastin is accelerated by sunlight, pollution, stress, eating disorders, and free radicals, which is why dermocosmetics products are in high demand, particularly among working populations who lead busy lives. A large demand for well-tolerated, safer solutions with established efficacy has also been created by growing worries about the health of skin and hair. Acne affects almost 50 million people annually in the United

States, according to the American Academy of Dermatology Association.

The Global Dermocosmetics Market report provides full coverage of the companies' data, including details about their production and manufacturing capacity, product portfolio, business overview, revenue, gross profit margins, sales network and distribution channel, financial standing, and market position. The report offers a comprehensive overview of the regional and competitive landscape and provides a deeper insight into the current market scenario and future growth prospects.

Global Dermocosmetics Market Report provides a detailed analysis of the market and its growth prospects :

The market for skin care products is the key area of this industry that is now expanding quickly and is anticipated to expand even further over the coming years. This market is further divided into anti-aging, acne treatments, and whitening skincare. The younger generation and working women in today's society are particularly concerned about skincare issues, and they are using their money to purchase skincare products to improve their skin and appearance.

Global Dermocosmetics Market Report provides a detailed analysis of the market and its growth prospects :

The skincare segment accounted for a moderate revenue share in 2021. Tobacco consumption, stress, and excessive alcohol intake all contribute to an unhealthy lifestyle, which is the primary reason for various skin illnesses such as deep wrinkles, psoriasis, dyspigmentation, eczema, seborrheic dermatitis, and acne. Rising awareness regarding long-term damage caused by external agents, such as pollution and sun, is increasing demand for dermocosmetics. Major corporations are collaborating on numerous R&D activities to improve existing dermocosmetics goods.

In 2021, the skin category represented a sizeable portion of revenue. One of the main reasons influencing the growth of this market's revenue is the rising demand for dermocosmetics due to their capacity to treat skin issues like sensitive skin, acne, and eczema among others in a targeted manner. The development of existing formulations is increasingly including well-known compounds like retinoid, hyaluronic acid, or niacinamide, which is fueling demand for dermocosmetics.

The clinics segment accounted for a significant revenue share in 2021. Provision of a wide range of skin and scalp treatments as well as growing cosmetic surgery, which is leading to an increase in aftercare treatment and products, are a few factors driving revenue growth of this segment.
