HELSINKI, FINLAND, August 18, 2022 /EINPresswire.com/ -- The Swedish investment company [Partinc Capital AB](#) invests in the Finnish SaaS company Seidat together with a Swedish family office. Seidat is a cloud-based sales platform that enables a smooth sales flow through interactive and easy-to-use sales materials and collaboration features.

Seidat meets today's challenges in terms of editing, managing, presenting, sharing, and analysing flexible presentations, and is suitable for both smaller local – and larger international companies. Their current customer base consists of nearly 300 companies in 12 countries.

With support from Partinc Capital, Seidat aims to further strengthen their outreach and software development capabilities, something that will partly be achieved through several new recruitments this upcoming fall.
