Depending on the purpose, the standard segment accounted for 69.3% of the market share in 2021 and led the global pet training services market. This dominance is attributed to the rising expenditure on pet training for the purpose of entertainment, companionship, and security functions. The rising adoption of pets for companionship and entertainment purposes is expected to boost the growth of the standard segment during the forecast period.

Based on the training method, the virtual is anticipated to witness the highest CAGR of 6.7% during the forecast period. Virtual pet training services are becoming increasingly popular, as people look for ways to train their pets without having to leave the comfort of their homes. Virtual pet training services offer a variety of different activities that they can do with their pet, and they can be a great way to keep their pet entertained and engaged. Furthermore, the rising adoption of digital technologies like internet and smartphones is driving the virtual segment's growth.

Region-wise, North America dominated the global market in 2021. The rising adoption of pets, high disposable income, increased trend of pet humanization, presence of several top pet training service providers, and increased awareness regarding the benefits of training pets are some of the major factors that has led to the dominance of North America in the global market.
