

# Maxi-Therm Inc. Announces Change of Ownership to Embrace Further Innovation in Steam Heat Solutions

MONTREAL, QC, CANADA, August 24, 2022 /EINPresswire.com/ -- Maxi-Therm Inc., an innovative industry leader in the design and manufacturing of complete steam solutions, announces a new era for its company. Founded by husband and wife Raymond and Jacqueline Lach in 2004, the company has been a family-owned business whose team included two of the Lach's sons and one

nephew. Moving with the company's natural evolution, as of December 2021, the ownership transitioned to include employees and American shareholders. The change of ownership is slated to continue what Maxi-Therm has come to signify in the marketplace; innovation and cutting-edge technology.

“

We're thrilled to continue to modernize concepts that have garnered Maxi-Therm's keen recognition as the leader in steam-to-hot-water complete package solutions.”

*Adrienne Saba*

Adrienne Saba of Maxi-Therm Inc. said, “We fully anticipate an influx of new ideas and young and creative energy that influences our dynamic, growing team. We're thrilled to continue modernizing concepts that have garnered Maxi-Therm's keen recognition as the leader in steam-to-hot-water complete package solutions.”

Granted six Canadian and American patents, Maxi-Therm uses an innovative vertical flooded design, and their

product line generates not only energy savings, but it also saves on maintenance costs, installation costs, and footprint usage. In addition to acquiring clients in the nuclear energy space, the company has enjoyed prestigious clients in the health and education sectors, food and beverage, and pharmaceutical industries. Moreover, the company has enjoyed 15-20% sales growth annually over the past five years.

Maxi-Therm products are available in both Canada and the United States via twenty-eight

exclusive distributors. The company offers formal three-day steam training seminars in their Montreal R&D laboratory.
