“These past couple of years has proven to be a challenge for many companies around the world. IIIMPACT has adapted by becoming a flexible, scalable organization providing high-value ROI to our clients. We have done this successfully by providing the strategic processes and tactical horsepower to create digital SaaS and Enterprise products, faster, with less risk and better development quality than most agencies are capable of delivering.” - Makoto Kern, Founder / UX Principal, IIIMPACT

The companies on the [2022 Inc. 5000](#) have not only been successful, but have also demonstrated resilience amid

supply chain woes, labor shortages, and the ongoing impact of Covid-19. Among the top 500, the

“The accomplishment of building one of the fastest-growing companies in the U.S., in light of recent economic roadblocks, cannot be overstated,” says Scott Omelianuk, editor-in-chief of Inc. “Inc. is thrilled to honor the companies that have established themselves through innovation, hard work, and rising to the challenges of today.”

“Launching a digital product whether for the first time or redesigning an outdated, existing one, is fraught with risk and challenges. Our value isn’t to prescribe some blue-sky idea, charge a high-consulting fee and leave you to figure out the rest. Success is seen by becoming a long-term partner for our clients - this allows us to better understand the dynamics of your company & clients and allows us to take ownership of the services we provide.” says Makoto Kern
