Located in Milford, DE, Banyan Delaware offers inpatient treatment for adults, first responders, and veterans struggling with substance use or co-occurring disorders. All patients receive a personalized treatment plan that targets their unique needs. Some program features available include equine therapy, sound therapy, a bio-feedback bed, and more.

Along with treating substance use disorders, Banyan provides inpatient and outpatient treatment for substance use and mental health disorders nationwide. All levels of care are available to patients including but not limited to medical detox, partial hospitalization, and

telehealth. Patients can take a step away from their normal, but sometimes toxic environments, and focus on their sobriety and wellness.

Like Banyan, Impact Life's mission is to build a solid foundation of recovery within their community. Ways to support this mission are through recovery residences, peer support, workforce development, cultural and spiritual experiences, opportunities for peer leadership, and service work projects. The United in Recovery fall festival is a true representation of their pursuit of that mission.
