*The Business Research Company's
Medical And Diagnostic Laboratory
Services Global Market Report 2022 –
Market Size, Trends, And Global Forecast
2022-2026*

LONDON, GREATER LONDON , UK,
August 23, 2022 /EINPresswire.com/ --
As per The Business Research
Company's "Medical And Diagnostic
Laboratory Services Global Market

Report 2022", the [medical and diagnostic laboratory services market](#) is expected to grow from \$152.68 billion in 2021 to \$170.17 billion in 2022 at a compound annual growth rate (CAGR) of 11.5%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The medical and diagnostic laboratory services market is expected to reach \$248.64 billion in 2026 at a CAGR of 9.9%. The increase in the prevalence of lifestyle diseases will increase the demand for tests to diagnose these diseases and thus will drive the medical and diagnostic laboratory services market during the forecast period.

[Key Trends In The Medical And Diagnostic Laboratory Services Market](#)

Medical and diagnostic laboratories are using biomarkers to measure health parameters associated with individual wellness. The health and wellbeing of individuals can be measured by using biomarkers to assess factors behind sleep disorders and symptoms of stress. Biomarkers such as cortisol, testosterone, and secretory IgA can indicate changes in immune system relating to physical and mental conditions. This can be used by physicians to know the causative factors behind such conditions. This is a premium service primarily targeted at wealthy individuals and senior employees of corporations.
