This has been a valuable learning experience, bringing a 360-degree perspective to the very important discipline of value creation albeit through the risk lens."

"This has been a valuable learning experience, bringing a 360-degree perspective to the very important discipline of value creation albeit through the risk lens; particularly at this time when the recognition of risk as a positive contributor to goals delivery, stability, and continuity of businesses is heightened," said Mrs. Boshoro. "I look forward to deploying this perspective in my role both as an executive and a board member."

The Qualified Risk Director® is a professional designation conferred exclusively by the DCRO Institute. It recognizes the distinguished ability to link corporate strategy to the positive governance of risk-taking. We grant permission to use the designation to experienced board members and senior executives from diverse industries, experiences, and geographies who successfully complete an extensive evaluation of business experience, risk management and risk governance acumen, demonstrated leadership, and educational background. Candidates must have breadth and depth across all four areas to receive approval to be named a Qualified Risk Director®.

The Certificate in Risk Governance® is awarded to those who have completed The Board Members' Course on Risk® - an intensive 17-course education program and evaluation. The curriculum is designed for current and aspiring board members who seek to advance the governance of risk-taking at their organizations and those who interact with boards. Taught by some of the world's leading figures in risk governance, the program features lessons by nearly 50 board members, c-level executives, and well-known authors from five continents. No course on risk for board members as robust as this - depth, practicality, and global expertise - exists anywhere else.

The fundamental Duty of Care for directors around risk is to ensure that our organizations take risks well in pursuit of our goals and ambitions. This course furthers the fulfillment of that duty.
