As an organization specializing in helping individuals overcome addiction, we feel it is our responsibility to do everything we can to help end this preventable tragedy that has shattered so many families.

“

Let's use our voices and social media reach to save lives and stop this lethal silence. As a society, we can do more, and we can surely do better!”

Fentanyl is killing people indiscriminately, and we must take immediate action if we want to prevent any more senseless deaths. Let's make August 21st the beginning of a nationwide response to the U.S. fentanyl poisoning crisis by announcing EVERY DAY as Fentanyl Poisoning Awareness Day. This will help to ensure that everyone is aware of the dangers of illicit fentanyl and knows how to best avoid coming into contact with it. By increasing awareness of the dangers of fentanyl, we can hopefully start to see a decrease in the number of people poisoned

by this deadly drug. Let's all work together to make this happen!

"Our country is facing a huge health emergency that requires urgent attention. We cannot stand idly by while so many families are suffering. Our team feels passionate about joining the efforts of so many families to stop this preventable tragedy from continuing. Let's use our voices and social media reach to save lives and stop this lethal silence. As a society, we can do more, and we

can surely do better!"
