The Business Research Company

Telemedicine Services Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026

telemedicine services market is expected grow from $79.92 billion in 2021 to $103.06 billion in 2022 at a compound annual growth rate (CAGR) of 28.9%. The growth in the market is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The telemedicine services market is expected to reach $237.19 billion in 2026 at a CAGR of 23.2%. Rising cases of COVID-19 infections across the globe is expected to boost the demand for the telemedicine services market.
