

Digital Health Global Market Estimated To Grow At 25% Rate

The Business Research Company's Digital Health Global Market Report 2022: Market Size, Trends, And Forecast To 2026

LONDON, GREATER LONDON, UK,
August 24, 2022 /EINPresswire.com/ --
As per The Business Research Company's "Digital Health Global Market Report 2022", the [digital health market size](#) is expected to grow from

\$201.24 billion in 2021 to \$252.47 billion in 2022 at a compound annual growth rate (CAGR) of 25.5%. The slow digital health industry growth trend is mainly due to the companies stabilizing their output after catering to the demand that grew exponentially during the COVID-19 pandemic in 2021. The digital health market share is expected to reach \$596.56 billion in 2026 at a CAGR of 24.0%. The favorable government initiatives in response to COVID-19 are expected to propel the growth of the digital health market in the coming years.

Key Trends In The Digital Health Market

Digital health market trends include major companies focusing on developing technologically advanced solutions for digital health. For instance, Allscripts released Avenel, a mobile-first, cloud-based electronic health record (EHR) that employs machine learning to minimize the time in medical documentation and boost EHR usability for providers. Avenel was developed on Microsoft Azure and incorporates clinical care trends to offer providers more efficient clinical reporting and medical decision-making.

[Overview Of The Digital Health Market](#)

The digital health market consists of sales of digital health services by entities (organizations, sole traders, and partnerships) that are engaged in providing digital health services for the smooth functioning of healthcare-related services. Digital health refers to the use of information technology/electronic communication tools, services, and procedures to provide healthcare services or to promote improved health care. Only goods and services traded between entities
