The key highlights of the report include:

Market Overview (2016-2026)

Historical Market Size (2020): USD 5.2 billion

Forecast CAGR (2021-2026): 20%

Forecast Market Size (2026): USD 15.5 billion

North America Home Security System Market

The market for North America home security system has seen substantial growth due to factors

such as evolution of new and improved system technologies. Also, increased knowledge across different industries offers an enormous market opportunity for key players in the North America home security system market.

Growing research and development within the industry has provided a space for the internet of things, remote control, and home automation, which has further strengthened the industry. In addition, the revival of construction activities, especially in the residential sector, is a major factor driving up demand for home security systems. Improving network infrastructure, as well as broadband and internet penetration, has acted as a catalyst for business expansion.

## Industry Definition and Major Segments

A home security system is a collection of software and hardware equipment designed to detect unauthorised entry or possible intruders in a protected area.

- DIY Type
- Professional Installed

Based on the panel type, the industry is divided into:

- Hard Wired Panels
- Wireless Panels
- Hybrid Panels
- Alarm Panels

Based on the sensor type, the industry is divided into:

- Wireless Sensors
- Wired Sensors

Based on the communication module, the industry is divided into:

- Professional Monitored

## Self-Monitored

Based on the equipment type, the industry is divided into:

Video Surveillance

Intruder Alarms

Electronic Locks

Fire Sprinklers and Extinguishers

Based on the residence type, the industry is divided into:

Independent Homes

Condominiums

Apartments

Based on the country, the industry is divided into:

United States

Canada

## Market Trends

Because of the rise in property-related crimes, the home security system industry in North America is the leading market for home security systems worldwide. The industry's development is aided by the availability of innovative devices for expanding the applications of modern home protection systems. Wireless alarms, remote systems, motion or body heat detectors, and customisable and smart alarm systems are among the home security systems available. Within the area, the United States is the most important market, accounting for the majority of market share.

## Key Market Players

The major players in the market are ADT Inc. (NYSE: ADT), Vivint Smart Home Inc., Frontpoint Security Solutions, LLC., Bosch Security Systems, LLC, Protect America, Inc, among others. The report covers the market shares, capacities, plant turnarounds, expansions, investments and mergers and acquisitions, among other latest developments of these market players.
