Benefits of American Samoas unique location

One key reason American Samoa is the best state to form LLC today is because of its unique location in the world. American Samoa's territorial capitol of Pago Pago is around 2,500 miles away from Hawaii, and almost 5,000 miles away from the mainland United States. An American

Samoa LLC cannot be sued without the other party's lawyer making a physical appearance in a courtroom in American Samoa. This virtually eliminates the possibility of dishonest lawyers or former clients filing frivolous lawsuits. Not even Wyoming or Delaware can offer that kind of protection.

[LLC Taxation](#) in American Samoa

American Samoa is the only unincorporated territory of the United States; unlike incorporated territories like Puerto Rico, the federal government's relationship with American Samoa is much

looser. At the request of the local government, residents of American Samoa are considered U.S. nationals, but citizens of Samoa. This means that LLC income earned in American Samoa is exempt from State taxes. Indeed, American Samoa has its own independent tax authority which is modeled on, but separate from, the IRS. This protection of business income from State Taxes is yet another major benefits of why form LLC in American Samoa.

Safeguarding LLC Businesses

In today's interconnected world, with an ever-expanding list of apps and services with nebulous and arbitrary Terms of Service, it can be easy to forget that people still have a Constitutional right to privacy. When registering an LLC in American Samoa, the identities of members & managers remain anonymous to everyone except a Registered Agent, whose services will be provided when registering an LLC. If LLCs don't want the world to know who is running a business, then an Anonymous LLC is a no brainer. Companies don't need a reason to keep this information private. Anonymous LLCs are there to protect Business owners from those who might want to harm or sue unlawfully!

A Bright Future In American Samoa

When American Samoa Governor Lolo Matalasi signed the American Samoa Limited Liability Company Act into law in 2018, it was the first step toward transforming American Samoa into the best state to form LLC. It signaled American Samoa's intention to compete with other business-friendly locations to become the new home of companies of the future. With the Internet now

able to connect this remote archipelago to the rest of the world almost instantly, the time for making an LLC in American Samoa is now. The benefits are simply too good and too numerous to pass up.

You can register your LLC today for as low as \$150 at llc.as.gov.
