

Precision Computer Methods, Inc. Offers Consulting Service to Sage 300 ERP Users

The service is beneficial for businesses who want to maintain or augment their current Sage 300 software and add value to their business practices.

ELBURN, ILLINOIS, UNITED STATES, August 25, 2022 /EINPresswire.com/ -- Precision Computer Methods, Inc., a business software and ERP consulting firm, has offered consulting services for businesses who want to continue using their Sage 300 ERP or upgrade it to support their scaling operations.

With over twenty eight years of experience with Sage Pro (SBT) and twenty years with [ACCPAC \(Sage 300 ERP\)](#), the company is one of the most trusted experts in working with the ERP software. The service offered by the consulting firm includes reconfiguration of clients' current Sage 300 ERP, enhancing the functions with add-on software, training their staff, and finding the right system to upgrade to.

Sage 300 is a powerful multilingual, multicurrency ERP software solution that helps a business streamline internal operations. It optimizes sales, marketing, finance, and planning, enabling businesses to remain competitive. The service enables clients to augment or upgrade their current Sage 300 ERP and enhances its business requirements solving ability to add value to their business practices. This is achieved by providing a free evaluation of clients' existing Pro ERP system and making suggestions and quotes where improvements and process changes are needed to bring the software solution up to requirements. PC Methods, Inc designs and executes an implementation plan that is focused on the efficient and effective use of clients' existing resources, and gets their software up and running efficiently. The training and software customizations provided by the service allow businesses to have an ERP solution that lasts for years.

Speaking about their service and expertise, the company's owner Peter Heinicke said, "Here at PC Methods, Inc, our motto is to provide clients with their exact business software needs. We have Sage Pro consultants, FoxPro consultants, [Sage 300 consultants](#), and Sage CRM consultants

with over 45 years of industry experience and dozens of years of experience working in the applications. If you need a business systems consultant, an ERP consultant, or someone who can analyze your accounting systems data, we can provide effective and valuable solutions to your needs.”

[About PC Methods, Inc.](#): PC Methods, Inc., is a business software and ERP consulting firm for manufacturing and distribution companies in the Greater Chicago Area. The Sage 300 Cloud consultant designs and builds cost effective, flexible business information systems that meet clients' unique requirements and add value to their businesses.
