Canine arthritis is a degenerative joint condition that affects dogs and causes inflammation in their joints as a result of excessive rubbing, cartilage damage, and long-term joint disease. Obesity, failure of bone development, and accidental injuries are some of the causes of canine arthritis in pets. Symptoms of arthritis in pets include discomfort, stiffness, swelling, and pain in joints, as well as constant rubbing of the affected area and the formation of an unwanted saliva patch.

Competitive Landscape and Canine Arthritis Treatment Market Share Analysis

Some of the major players operating in the canine arthritis treatment market are Boehringer Ingelheim International GmbH., DAIICHI SANKYO COMPANY, LIMITED, Thorne, NUTRI-VET, Liquid Health., American Regent, Inc., DSM, Elanco, Zoetis, nationalhogfarmer, Ceva, Novasep, BASF SE, Bayer AG, and Matsun Nutrition among others.

Drivers

Growing Cases of Arthritis and Related Disorders

The growing cases of arthritis and related disorders will result in the expansion of the growth rate of the treatment market. Moreover, obesity in pets is becoming more common all over the world. Obesity is directly linked to osteoarthritis in dogs, which results in difficulty moving due to the increased load on joints caused by excess fat and body weight.

Moreover, the instability in the joints, ligament fracture, long term pain in the joints, excessive rubbing of the joints which increases the risk of evolving arthritis are also a growth determinant which bolster the growth of the market. Also, the increased adoption of canines (dogs) will further enhance the growth of canine arthritis treatment market.

Furthermore, availability of the treatment will expand the canine arthritis treatment market. Other factors such as increase in the demand for effective treatment procedures coupled with the advancement in technology available for the pets will positively impact the canine arthritis treatment market's growth rate.

Opportunities

Moreover, the fast approval for veterinary regenerative medicine and veterinary therapeutic drugs by FDA to repair the damaged tissues will boost new opportunities for the market's growth rate. Also, the increase in awareness regarding canine health will escalate the growth rate canine arthritis treatment market in future.

Recent Developments

In September 2020, The Committee for Medicinal Products for Veterinary Use (CVMP) granted Zoetis a variation in terms of marketing authorization for the veterinary medicinal product Cytopoint, which involves adding a new therapeutic indication for the treatment of pruritus associated with allergic dermatitis in dogs.

Global Canine Arthritis Treatment Market Scope

The canine arthritis treatment market is segmented on the basis of type, route of administration, treatment, end-users and distribution channel. The growth amongst these segments will help you analyze meager growth segments in the industries and provide the users with a valuable market overview and market insights to help them make strategic decisions for identifying core market applications.

Type

- Surgery
- Drugs
- Others

On the basis of type, canine arthritis treatment market is segmented into surgery, drugs and others.

Route of Administration

- Oral
- Parenteral
- Others

On the basis of route of administration, canine arthritis treatment market is segmented into oral, parenteral and others.

Treatment

- Non-steroidal anti-inflammatory Medications (NSAIDs)
- Opioids
- Stem Cell Therapy
- Allogeneic Stem Cells
- Autologous Stem Cells

On the basis of treatment, the canine arthritis treatment market is segmented into non-steroidal anti-inflammatory medications (NSAIDs), opioids, stem cell therapy, allogeneic stem cells and autologous stem cells. Stem cell therapy is projected to grow at a significant amount within the forecasted period.

End-Users

Hospitals
Speciality Clinics
Others

On the basis of end-users, the canine arthritis treatment market is segmented into hospitals, speciality clinics and others.

Distribution Channel

Hospital Pharmacy
Retail Pharmacy
Others

On the basis of distribution channel, the canine arthritis treatment market is segmented into hospital pharmacy, retail pharmacy and others.

[Canine Arthritis Treatment Market](#) Regional Analysis/Insights

The canine arthritis treatment market is analyzed and market size insights and trends are provided by country, type, route of administration, treatment, end-users and distribution channel as referenced above.

The countries covered in the canine arthritis treatment market report are U.S., Canada and Mexico in North America, Germany, France, U.K., Netherlands, Switzerland, Belgium, Russia, Italy, Spain, Turkey, Rest of Europe in Europe, China, Japan, India, South Korea, Singapore, Malaysia, Australia, Thailand, Indonesia, Philippines, Rest of Asia-Pacific (APAC) in the Asia-Pacific (APAC), Saudi Arabia, U.A.E, South Africa, Egypt, Israel, Rest of Middle East and Africa (MEA) as a part of Middle East and Africa (MEA), Brazil, Argentina and Rest of South America as part of South America.

North America dominates the canine arthritis treatment market in terms of market share and market revenue and will continue to flourish its dominance during the forecast period. This is due to the increasing adoption of animals and veterinary hospitals along with the increasing consumer spending on vet in this region. Asia-Pacific on the other hand is projected to exhibit the highest growth rate during the forecast period due to the increased prevalence of arthritis in

dogs, accessibility of treatment and diagnostic methods and increased health awareness programs for the animals in the region.

This Canine Arthritis Treatment Market Research/analysis Report Focus on following important aspects: –

Manufacturing Technology is Used for Canine Arthritis Treatment Kits: – Undergoing Developments in That Technology, Trends Causing These Developments.

Global Key Players of Canine Arthritis Treatment Market: – Their Company Profile, Product Information and Contact Information.

Status of Canine Arthritis Treatment Market: – Past and Present information and Future predictions about Productions Capacity, Production Value, Cost and Return on Investments in Canine Arthritis Treatment Market.

Current Market Status of Canine Arthritis Treatment Market: – Market Competition includes both Company and Country Wise competition in this Industry. Market Analysis of Canine Arthritis Treatment Market by Taking Applications and Types in Consideration.

Predictions of Global Canine Arthritis Treatment Market Considering Production Capacity, and Production Value. What Estimation is expected for Cost Vs Profit? What Will Be Market Share, Supply and Consumption? What about Import and Export?

Canine Arthritis Treatment Market Chain Analysis by Upstream Raw Materials and Downstream Industry.

Economic Impact on Canine Arthritis Treatment Market: – What are Global Canine Arthritis Treatment Analysis Results? What Are Global and Chinese Canine Arthritis Treatment Development Trends?

Market Dynamics of Canine Arthritis Treatment Market: – Challenges and Opportunities. What Should Be Entry Strategies, Countermeasures to Economic Impact, and Marketing Channels for Canine Arthritis Treatment Market?
