An office clean-out is precisely what it sounds like - thoroughly cleaning your workspace to eliminate any unwanted clutter. This can be anything from old paperwork and files to unused office supplies and furniture. Getting rid of this clutter can help you feel more organized and productive in your space.

## 2. What to Keep and What to Get Rid Of

When doing an office clean-out, deciding what you want to keep and what you can get rid of is essential. Anything outdated or no longer needed can be thrown away or donated. This includes old paperwork, files, and even furniture. Likewise, if something is taking up valuable space in your office and you don't use it anymore, it's time to let it go!

## 3. The Benefits of Getting Organized

The benefits of getting rid of unwanted clutter are many. Not only will you free up valuable space
