The key highlights of the report include:

Market Overview (2016-2026):

Historical Market Size (2020): USD 59.4 Billion
Forecast CAGR (2021-2026): 5.1 %
Forecast Market Size (2026): USD 80.3 Billion

Growing demand for adhesive tapes across multiple industrial end-use verticals, such as paper & printing, retail, and food & beverage, is an expected major factor in driving global market growth over the next few years. Another major factor expected to support the sales growth of the potential market over the next 10 years is the growing variety of applications in the electronics and healthcare industries.

Besides, various features and benefits provided by adhesive tapes, such as maintaining adhesion over a high-temperature range and the ability to adhere to difficult surface conditions, are other factors estimated to boost the adoption of these products.

Industry Definition and Major Segments

Sticky tape is an adaptable strip made of paper, material, metal foil, or plastic film covered with a meager layer of lasting glutinous glue on a single side or the two sides. These tapes are open in the type of sheets or moves of different sizes on the lookout and are accessible in different structures, for example, pressure-touchy tapes, self-staying tapes, and tacky tapes. Moreover, these tapes are significantly used for pressing and restricting items in different ventures, for example, food and refreshment, medical services, internet business, among others.

Based on resin type, the market can be divided into the following:

Silicone
Acrylic
Rubber
Others

The material used in the industry can be categorised as follows:

Paper
Polyvinyl Chloride
Polypropylene
Others

On the basis of technology, the market can be divided into the following:

Water-Based
Hot-Melt-Based
Solvent-Based
Others

Adhesive tapes find wide applications in the following:

Specialized Tapes
Packaging Tapes
Masking Tapes
Others

On the basis of regional markets, the industry is divided into:

1 North America
1.1 United States of America
1.2 Canada

2 Europe
2.1 Germany
2.2 United Kingdom
2.3 France
2.4 Italy
2.5 Others

3 Asia Pacific
3.1 China
3.2 Japan
3.3 India
3.4 ASEAN
3.5 Others

4 Latin America
4.1 Brazil
4.2 Argentina
4.3 Mexico
4.4 Others

5 Middle East & Africa
5.1 Saudi Arabia
5.2 United Arab Emirates
5.3 Nigeria
5.4 South Africa
5.5 Others

Market Trends

The demand for adhesive tapes is expected to grow at a progressive pace in the coming years due to the rise in awareness among competitors of the benefits of adhesive tapes. The growth of the application segment has led to numerous research and development activities, and thus the market appears to be growing at a remarkable pace.

The recent trend of substituting adhesives for bolts, screws, rivets, and other attachment or fastening techniques has contributed to the global advancement of the adhesive industry. Also, there is a new demand for lightweight vehicles, and this is also adding fuel to the adhesive market's rise. The fact that adhesives are helpful to nature and do not affect the environment serves as a benefit and thus leads to the overall growth of the demand for adhesive tapes in all parts of the world.

Asia Pacific, due to the advancement of technology, is projected to expand at a promising pace in the coming years. In addition, raw materials are readily available in Asia Pacific and, with the advent of time, the manufacturing infrastructure is also developing. Except for different small-scale players and local production facilities, North America and Europe are established markets for adhesive tapes.

Key Market Players

The major players in the market are 3M Co., H.B. Fuller Company, LINTEC Corporation, Berry Global Inc., Nitto Denko Corporation, Bostik, Inc, Sika AG, among others. The report covers the market shares, capacities, plant turnarounds, expansions, investments and mergers and acquisitions, among other latest developments of these market players.
