

# Global Blood And Blood Components Market Drivers, Trends And Restraints For 2022-2031

*The Business Research Company's Blood And Blood Components Global Market Report 2022 – Market Size, Trends, And Global Forecast 2022-2026*

LONDON, GREATER LONDON, UK,  
August 26, 2022 /EINPresswire.com/ --  
As per The Business Research Company's "[Blood And Blood Components Global Market Report 2022](#)", the market size is expected to

grow from \$35.63 billion in 2021 to \$37.18 billion in 2022 at a compound annual growth rate (CAGR) of 4.4%. The blood and blood components market growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The blood and blood components market is expected to reach \$44.11 billion in 2026 at a CAGR of 4.4%. According to the blood and blood components market forecast, the market is being driven by increasing incidence of trauma and road accidents.
