

# Toothbrush Pillow Demonstrated At Assistive Technology of Ohio

COLUMBUS, OH, USA, October 14, 2022 /EINPresswire.com/ -- [Assistive Technology of Ohio](#) lending library of tools, devices, and assistive technology services for persons with physical or neurological impairments, is expanding in a small way.

The latest addition to the device demonstration is the Toothbrush Pillow, a small countertop HSA & FSA medical device that balances a toothbrush in the horizontal position with bristles up to aid and assist physically or neurologically impaired individuals in applying toothpaste. Like all the numerous devices and services available from Assistive Technology of Ohio, the Toothbrush Pillow can be tried by the user before committing to its use.

AT Ohio's mission is to help Ohioans with disabilities learn about or acquire assistive technology. Assistive Technology refers to devices, equipment or services that assist individuals with disabilities to function independently in the areas of work, home or school. We offer several programs and services to achieve that goal. We also keep up with current legislative activity that affects persons with disabilities, and educate legislators about the needs and concerns of citizens with disabilities.

## Assistive Technology

AT Ohio now has the Toothbrush Pillow thru the AT Demonstrations programs. This opportunity is for a person to interact with an AT device, learn about the different features and compare with other similar devices. An AT Device Demo allows a person to make an informed decision about whether the device is the right one.

According to [CDC.gov](http://www.cdc.gov) percent of Ohio adults have a self-care disability, 12 percent with mobility disability, and 7 percent have an independent living disability. Independent living is described as serious difficulty doing errands alone, such as visiting a doctor's office and self-care is difficulty dressing or bathing.

Assistive Technology of Ohio (AT Ohio) is a federally funded nonprofit organization that is part of the College of Engineering at The Ohio State University. AT Ohio is the officially designated Tech Act program for Ohio.

The federal agency of Health and Human Services provides funding for all tech act programs. Each state and U.S. territory provide appropriate services under the guidelines of the Assistive Technology Act of 1998, as amended in 2004.

The Assistive Technology Industry Association (ATiA) defines Assistive technology (AT) is any item, piece of equipment, software program, or product system that is used to increase, maintain, or improve the functional capabilities of persons with disabilities.

The small Toothbrush Pillow, like thousands of other devices designed to assist disabled and elderly, is available at 46 out of 56 assistive technology locations throughout all 50 states, four US territories, the District of Columbia and Puerto Rico.

### About Toothbrush Pillow

The device is currently being used by individuals with Parkinson's, arthritis, Multiple Sclerosis (MS), stroke, Autism, and upper limb amputees. Occupational therapists supply the Toothbrush Pillow and teaches client's proper oral care. The device creates opportunities for individuals with daily oral care when dealing with extraordinary medical issues in the absent of medical doctors. Very economical, easy to use, and can be used independently. The intellectual property behind TBP is owned by American Businessman, Anthem Pleasant.
