As per The Business Research
Company's "[Consumer Electronics
Repair and Maintenance Global Market
Report 2022](#)",

the consumer electronics repair and maintenance market share is expected to grow from \$7.98 billion in 2021 to \$8.38 billion in 2022 at a compound annual growth rate (CAGR) of 5.1%. The growth in the consumer electronics repair and maintenance market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The consumer electronics repair and maintenance market is expected to reach \$9.60 billion in 2026 at a CAGR of 3.5%. According to the consumer electronics repair and maintenance market analysis, an increase in equipment failure rates and cost benefits of repairing old equipment rather than disposing of them are expected to drive market.
