As per The Business Research
Company's "Cellulose Acetate Global
Market Report 2022", the cellulose

acetate market is expected to grow from \$4.38 billion in 2021 to \$4.71 billion in 2022 at a compound annual growth rate (CAGR) of 7.7%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. As per TBRC's cellulose acetate market research the market is expected to reach \$5.79 billion in 2026 at a CAGR of 5.3%. The increasing consumption of cigarettes is expected to drive the growth of the cellulose acetate market going forward.
