

# Insights Into The Global Musculoskeletal Disorders Drugs Market 2022-2031 Forecast Period

*The Business Research Company's Musculoskeletal Disorders Drugs Global Market Report 2022: Market Size, Trends, And Forecast To 2026*

LONDON, GREATER LONDON, UK,  
August 31, 2022 /EINPresswire.com/ --  
As per The Business Research Company's "Musculoskeletal Disorders Drugs Global Market Report 2022", the [musculoskeletal disorders drugs](#)

[market size](#) is expected to grow from \$897.45 billion in 2021 to \$104.03 billion in 2022 at a compound annual growth rate (CAGR) of 6.8%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The musculoskeletal disorders drugs market share is expected to reach \$163.94 billion in 2026 at a CAGR of 12%. According to the musculoskeletal disorders drugs market analysis, the aging population profile of most countries contributed to the growth of the market.

## Key Trends In The Musculoskeletal Disorders Drugs Market

Going forward, the market for muscle relaxants is expected to increase with the rise in combination therapy. Combination therapy involves use of more than one medication or drug to treat a disease. These combinational therapies reduce the frequency of drug administration. For instance, in May 2019, Galt Pharmaceuticals has submitted a Supplemental Abbreviated New Drug Application to the U.S. Food and Drug Administration for Orphenesic Forte an oral formulation of aspirin, caffeine, and orphenadrine for the treatment of pain caused due to musculoskeletal disorders.
