The flipped classroom model of teaching is enhancing students' learning experience by creating an interactive atmosphere in classrooms. In flipped classrooms, students view lecture materials or video lectures as homework prior to coming to class. During in-class time, interactive discussions and collaborative works are performed under the guidance of the teacher. Flipped classrooms give students the flexibility to consume the lecture material at their own pace and come prepared to ask specific questions in class. According to the Flipped Learning Network, 71% of teachers who flipped their classes noticed improved grades, and 80% reported improved
