

Three Poodle Launches a Creative Luminous Wearable Blanket

*The Luminous Wearable Blanket
Launched by Three Poodles*

MA, THE UNITED STATES, August 31, 2022 /EINPresswire.com/ -- [Three Poodle](#) has launched a creative [wearable blanket](#) - the luminous blanket hoodie because they are not satisfied with ordinary style design. Three Poodle predicts the luminous blanket hoodie will be one of the best-selling wearable blankets in 2022.

Three Poodle launched a creative wearable blanket. It is a luminous blanket hoodie that is exposed to a high-intensity light source or sunlight for 10 minutes and will glow in the dark, making it feel mysterious and interesting. The brighter the light, the brighter in the dark.

Luminous Wearable Blanket

In addition to adding the luminous feature, the luminous blanket hoodie keeps you warm as the normal wearable blanket does. It can be a warming companion during this winter. Featuring a premium sherpa lining that is light, soft, comfortable, flexible, breathable, and feels like cotton, the wearable blanket brings you softness and coziness wherever you are. Sherpa lining has surged in popularity, favored for its modern features, cold-weather performance, and vintage style cues. It is thick enough to keep the body warm by trapping radiant body heat that otherwise would be lost through convection.

Therefore, the [luminous blanket sweatshirt](#) can be worn comfortably both indoors and outdoors, which will not restrict your movement as much as home clothes will. When you rest on a sofa and watch TV or work on your laptop, it keeps you warm and comfortable. The blanket hoodie can be taken to an outdoor barbecue, camping, or picnic. The wearable blanket has a large hood

that keeps your head and neck warm and doubles as a pillow when lying down. There is a large pocket that can be used to store snacks, a mobile phone, or remote control. A tiny bit roomier when compared to an ordinary sweatshirt, so you can curl up your body and lift the legs to tuck the sweatshirt blanket under the heels. When you're reading, playing video games, napping on the couch, or camping or hiking in the winter, the wearable hooded blanket becomes an essential element in winter no matter what you do.

"Furry animals use their fur to keep out the cold and survive the winter. Our brand is inspired by this and produces fluffy wearable blankets to help people through the cold season. We have achieved rapid growth because we use premium materials, and simple and varied designs to satisfy the public's demands for creative, comfortable, warm, and fashionable," says Founder Michael.

The luminous wearable blanket both are machine washable and hand washable that convenient for you clean and maintain in daily life.

The luminous blanket hoodie is now available on www.threepoodle.com. The new consumer can order it on Threepoodle.com and receive 10% off their first order if they sign up for the Three Poodle newsletter.
