

TRB Lightweight Structures all charged up for The Battery Show North America 2022

ST. NEOTS, UK, August 31, 2022

/EINPresswire.com/ -- TRB Lightweight Structures is pleased to announce its attendance at The Battery Show North America 2022, taking place September 13-15. The company will join over 750 industry suppliers at the expo, which is set to become a highlight of the year for the electric and hybrid vehicle technology community. TRB is passionate about enhancing clean transportation and will be showcasing its lightweight engineered components, including composite interior parts and battery enclosures.

TRB has been at the forefront of lightweight structure design and manufacture for almost 70 years and is committed to accelerating the adoption of sustainable transportation solutions through innovation in materials and manufacturing methods. Its knowledge of metallics and composites, along with bonding and fabrication expertise, allow TRB to produce bespoke solutions for each application, ensuring optimal product performance. By combining innovative production pipelines and diverse metallic and composite material choices, TRB can produce structural components that are thinner, lighter, and more resistant to corrosion, all at a comparable cost to industry standards. Additionally, state-of-the-art automation combined with lean manufacturing principles allows for low-, medium- and high-volume production options, ensuring that TRB can accommodate a variety of customer needs and applications.

Andrew Dugmore, President of TRB, commented: "TRB Lightweight Structures is thrilled to be showcasing its innovations in material science, component design and construction methods at this year's expo, and looks forward to forging further collaborative relationships with the electric and hybrid vehicle technology community to promote a more sustainable future."

The graphic is a promotional poster for 'THE BATTERY SHOW NORTH AMERICA 2022'. At the top, the TRB Lightweight Structures logo is displayed in a dark box. Below this, on the left, is a red banner that says 'REGISTER FREE'. In the center is a circular image of the Suburban Collection Showplace building. To the right of the circle, text reads 'THE LARGEST EVENT DEDICATED TO THE BATTERY AND EV SECTORS' with hashtags #TheBatteryShow and #EVTechExpo. Below this, it says 'FIND US AT BOOTH 2655'. At the bottom right, the TRB logo is shown again, followed by a note: 'Use code SPECIAL to claim your free expo pass or get 20% off a conference pass at check out.' The event dates 'SEPTEMBER 13-15, 2022' and location 'Suburban Collection Showplace | Novi, MI' are also present.

About TRB Lightweight Structures

TRB Lightweight Structures (TRB) is a leading international manufacturing and engineering company, specialising in lightweight and durable composite products for a range of industries. Since its formation in 1954, TRB has invested heavily in people, and has a team of over 130 experts to support its services across design, engineering, manufacturing and quality. TRB's cross-functional teams work closely with customers to tackle big challenges – reducing weight while improving performance, safety and durability. The company prides itself on working with other businesses that take their carbon footprint seriously, and want to use more environmentally-friendly materials in their manufacturing processes.
