

# Liteye Systems Announces New Product: Multi-Domain Explore (MDX)

*MDX adds man-portable, rapid deployment, capabilities to Liteye's SHIELD Defense Solutions & C-UAS portfolio*

CENTENNIAL, CO, USA, August 31, 2022 /EINPresswire.com/ -- [Liteye](#) Systems, Inc. a world leader in Counter Unmanned Aerial Systems (C-UAS), launches its newest product within the Liteye SHIELD Defense & C-UAS Solutions product line today, the [Multi-Mission Explorer \(MDX\)](#).

The MDX is a man-portable, multi-domain sensor package that employs 3D radar technology combined with HD EO/IR and cooled MWIR sensors to provide unmatched air and ground surveillance, target acquisition, and tracking for its tactical size and weight. The full MDX system capability offers RF surveillance and detection, 3D radars, HD EO/IR optical surveillance, target tracking, a laser target designation capability, and omnidirectional and/or directional Electronic Attack in a small, man-portable, or platform-integrated package that can be remotely operated and controlled by a single operator.

"The MDX has multiple variations as a modular small-form-factor," said Ryan Hurt, VP of Business Development. "The system is
