

# Global Outsourced Semiconductor Assembly And Testing Market Size And Market Growth Opportunities

*Outsourced Semiconductor Assembly And Testing Market Report by TBRC covers the market drivers and restraints, size, major players, and the impact of COVID-19*

LONDON, GREATER LONDON, UK,  
September 1, 2022 /EINPresswire.com/

-- According to 'Outsourced Semiconductor Assembly And Testing Global Market Report 2022' published by The Business Research Company,

the outsourced semiconductor assembly and testing market size is expected to grow from \$32.28 billion in 2021 to \$34.09 billion in 2022 at a compound annual growth rate (CAGR) of 5.60%. As per TBRC's outsourced semiconductor assembly and testing market research the market size is expected to reach \$45.47 billion in 2026 at a CAGR of 7.47%. The growing demand for consumer electronics is expected to propel the growth of the outsourced semiconductor assembly and testing global market.

The outsourced semiconductor assembly and testing market consists of sales of outsourced semiconductor assembly and testing services by entities (organizations, sole traders, and partnerships) that refer to a third-party service comprising semiconductor assembly, packaging, and testing of ICs (integrated circuits). The outsourced semiconductor assembly and testing (OSAT) services are offered by vendors/suppliers that are contracted by semiconductor design companies.

## [Global Outsourced Semiconductor Assembly And Testing Market Trends](#)

The strategic partnership is a key trend in the outsourced semiconductor assembly and testing (OSAT) market. The technology/software companies are entering into a partnership with OSAT companies to develop new design platforms and technological enablement for next-generation

advanced package designs. These partnerships are aimed at leveraging each other's expertise and resources as well as gaining a competitive edge in the market.

### [Global Outsourced Semiconductor Assembly And Testing Market Segments](#)

The global outsourced semiconductor assembly and testing market is segmented:

By Type: Test Service, Assembly Service

By Process: Sawing, Sorting, Testing, Assembly

By Packaging Type: Ball Grid Array, Chip Scale Package, Multi Package, Stacked Die, Quad and Dual

By Application: Communication, Consumer Electronics, Computing and Networking, Automotive, Industrial, Others

By Geography: The global outsourced semiconductor assembly and testing market is segmented into North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa. Among these regions, Asia-Pacific accounts for the largest share.

Outsourced Semiconductor Assembly And Testing Global Market Report 2022 is one of a series of new reports from The Business Research Company that provides outsourced semiconductor assembly and testing market overviews, analyzes and forecasts market size and growth for the global outsourced semiconductor assembly and testing global market, outsourced semiconductor assembly and testing global market share, outsourced semiconductor assembly and testing market segments and geographies, outsourced semiconductor assembly and testing market trends, outsourced semiconductor assembly and testing global market players, outsourced semiconductor assembly and testing global market leading competitor revenues, profiles and market shares. The outsourced semiconductor assembly and testing industry report identifies top countries and segments for opportunities and strategies based on market trends and key competitors' approaches.

TBRC's Outsourced Semiconductor Assembly And Testing Global Market Report 2022 includes information on the following:

Data Segmentations: Market Size, Global, By Region and Country, Historic and Forecast, and Growth Rates for 60 Geographies

Key Market Players: ASE Group, Amkor, JCET, Siliconware Precision Industries Co Ltd, KYEC, Hana Micron, Signetics, Unisem Group, Walton Advanced Engineering, Powertech Technology Inc, Tianshui Huatian Technology Co LTD, TongFu Microelectronics Co LTD, ChipMOS Technology Inc, Formosa Advanced Technologies Co Ltd, UTAC Holdings Ltd, Chipbond Technology Corporation, Integrated Micro-electronics Inc, Tianshui Huatian Technology Co Ltd and NEPES.

Regions: Asia-Pacific, China, Western Europe, Eastern Europe, North America, USA, South America, Middle East and Africa.

Countries: Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, UK, USA.

And So Much More.
