Labor Day 2022

Labor Day is an American federal holiday commemorating and honoring American labor's accomplishments. Labor Day's origins may be traced back to the decades after the Civil War, when workers participated in strikes and demonstrations to ensure shorter workdays and improved working conditions.

Labor Day is celebrated the first week in September. The event is celebrated to remember the deaths of some anarchists in the US who held a protest in 1886.

Celebrate Labour Day With Hovsco E-Bikes And Feel Special

Even while there are still parades and other celebrations to commemorate workers, for many, the long Labor Day weekend symbolizes the unofficial end of the summer. Trains and other festivities had been postponed in previous years owing to the epidemic, but in 2022 they began to return in several American cities.

Given recent events, Labor Day will most certainly not be celebrated in the same way as last year, with large picnics and group activities. Instead of crowds, spend your day exploring the great outdoors on a quick, enjoyable electric bicycle this year.

HOVSCO wants to show its solidarity with laborers on this Labor Day by offering a special gift. HOVSCO will send customers a THOUSAND HELMET or an ABUS E-bike LOCKS for FREE during Labor Day from September 1st to September 5th, 2022.
