

Medical Lifting Sling Market size is estimated to reach \$1.1 billion by 2027 - IndustryARC

Medical Lifting Sling Market size is estimated to reach \$1.1 billion by 2027, growing at a CAGR of 9.3% during the forecast period 2022-2027.

HYDERABAD, TELANAGANA, INDIA, September 1, 2022 /EINPresswire.com/

-- [Medical Lifting Sling Market](#) size is estimated to reach \$1.1 billion by 2027, growing at a CAGR of 9.3% during the forecast period 2022-2027. Medical

lifting slings are assistive devices that permit patients in hospitals and nursing homes, and people accepting home healthcare to be transferred between a bed and a chair or other very much alike resting places. These are the mobile devices that assist in the secure pick-up of patients who are weak, obese, or incapacitated. Patient slings are essential machinery to be utilized in integration with patient hoists. Patient hoists were established to help carers in shifting patients through an appropriate manual handling technique.

Key Takeaways:

1. Geographically, Europe Medical Lifting Sling Market accounted for the highest revenue share in 2021 and it is poised to dominate the market over the period 2022-2027 owing to the expanding population of the elderly and increasing predominance of lifestyle ailments like diabetes and cardiovascular diseases which may require the application of patient hoists in the European region.
2. Medical Lifting Sling Market growth is being driven by the augmented count of people enduring neuromuscular ailments and the measures taken to avert overexertion in personnel managing the patients involving patient hoists as required. However, the soaring hazard of cross-contamination in reusable slings is one of the major factors hampering the growth of the Medical Lifting Sling Market.
