The global Home healthcare market has witnessed significant growth during the pandemic. This is mainly attributed to the fact that the COVID-19 pandemic situation has led to the shortage of hospital beds, oxygen, medicines, and medical equipment, following the exponential rise in covid-19 cases. Hence, a rising number

Global Home healthcare Market Demand

of private sector hospital chains are rapidly starting to provide home healthcare facilities, especially for covid-19 patients. The market would remain bullish in the upcoming year. The significant increase in the global Home healthcare market size in 2020 is estimated on the basis of the COVID-19 outbreak. Various scenarios have been analyzed on the basis of inputs from

various secondary sources and the current data available about the situation.

Growth Factors

The global home healthcare market is mainly driven by the increasing geriatric population, rising healthcare costs, and technological advancements in healthcare devices. With increasing health awareness among people, and an increase in the number of people diagnosed with chronic diseases such as diabetes cardiac disorders, and respiratory diseases, the demand for the home healthcare market is expected to grow in the near future. The population of geriatric people is growing rapidly across the world. The geriatric population is more vulnerable to chronic diseases such as diabetes. This, in turn, is expected to fuel the growth of the home healthcare market. However, changing reimbursement policies and limited insurance coverage may pose a challenge to the home healthcare market growth in the near future. Rapid job growth in home healthcare services is expected open alluring avenues for market growth over the next few years.

Segment Analysis Preview

Based on product segments, the home healthcare market has been segmented into diagnostics and monitoring home devices, therapeutics home healthcare devices, medical supplies, and home mobility assists devices. Diagnostic and monitoring devices include blood pressure monitors, pregnancy test kits, heart rate monitors, temperature monitors, and others. In 2020, diagnostic and monitoring devices were the major segment of the global home healthcare market in terms of revenue and are expected to continue their dominance in the global market over the forecast period.

The medical supplies product segment was the second largest segment of home healthcare and constituted a 27.89% share of the global demand in 2020. Further, it is expected to grow at the fastest pace in the forecast period. Conversely, the home mobility assistive devices product segment held a smaller share of the global home healthcare market in 2020.
