

AeroNeph Therapeutics Announces Successful MBO and Global Search for Strategic Partners for Novel Renal Disease Drugs

AeroNeph Therapeutics ("AeroNeph"; www.aeroneph.com), a pioneer in discovery of renal disease assets, has announced its MBO and corporate launch in the USA.

BIRMINGHAM, ALABAMA, UK,
September 12, 2022 /
EINPresswire.com/ -- AeroNeph Therapeutics ("AeroNeph"; <https://www.aeroneph.com>), a US-based pioneer in discovery of renal disease assets, has announced its corporate launch in North America.

AeroNeph has acquired its drug candidates from leading preclinical CRO Discovery Biomed who have used a revolutionary human disease approach to drug discovery; Discovery Biomed was acquired by Eurofins Discovery in July 2022, a leading global CRO.

Our pipeline of novel drug candidates have potential to become ground-breaking drugs in the control of renal diseases."

Dr. Erik Schwiebert

AeroNeph's focus is on Polycystic Kidney Disease, Chronic Kidney Disease and Lupus Nephritis.

AeroNeph is seeking strategic industry partners to collaborate/partner/license its 3 R&D programs, with a strong focus on Human Renal Disease for their

advancement and continued preclinical and clinical development.

Aeroneph has acquired a range of preclinical drug assets which arose from Discovery Biomed's unique human cell discovery program and intends to progress these into the clinic. Their asset portfolio includes molecules focused on:

- DBM 701 for Human Genetic Renal and Respiratory Diseases (PKD, CF, etc.)
- ADN Inducers for Dyslipidemia and Other Diabetes and Obesity Complications
- STING Inhibitors for Lupus Nephritis, SAVI (niche genetic autoimmune diseases)

Following a strategic review of its clinical and commercial development options, AeroNeph has appointed The Sage Group to lead the partnering program for its leading candidates capable of modulating renal disease including Chronic Kidney Disease, Polycystic Kidney Disease, and Lupus Nephritis.

AeroNeph is a rapidly growing, US-based pharmaceutical discovery company, focused on using human cell models for drug discovery.

The Company is led scientifically by Dr. Erik Schwiebert, Consulting CEO, and Dr. John Strieff, Consulting CSO.

AeroNeph has long lasting and issued patents protecting its discoveries and its pipeline.

Erik Schwiebert, Consulting CEO of AeroNeph, said "Our pipeline drug candidates have the potential to become ground-breaking drugs in the control of renal diseases. We look forward to working with partners seeking these valuable assets which have been proven in human cell models of disease, and who wish to partner with us to develop these assets in clinical and commercial respects."
