

Asia-Pacific Chronic Disease Management Market Size to Grow Worth USD 14,329.15 Million at CAGR of 15.8% by 2028

Asia-Pacific Chronic Disease Management Market Industry Analysis and Forecast 2028

PUNE, MAHARASHTRA, INDIA, September 2, 2022 /EINPresswire.com/ -- [Asia-Pacific Chronic Disease Management Market](#) report with its

market research studies help anticipate next move of the competitors while keeping business in a better position to avert any possible damage from their end. Market

research can help identify markets and geographical areas where business can expand to. It can also help to invest in ideas that have the most potential to succeed based on what customers are looking for and what the market is lacking. For any retail company, conducting market research can be useful to make out locations where the store can profit the most.

The chronic disease management market is expected to gain market growth in the forecast period of 2021 to 2028. Data Bridge Market Research analyses that the market is growing with a CAGR of 15.8% in the forecast period of 2021 to 2028 and is expected to reach USD 14,329.15 million by 2028. Rising prevalence of chronic diseases demands the advanced chronic disease management solutions and services, thus acts as driver for the Chronic Disease Management market growth.

Chronic disease management (CDM) is ongoing care and support to assist individuals impacted by a chronic health condition with the medical care, knowledge, skills and resources they need to better manage on a day to day basis. It is primarily provided by various software and services. Chronic disease management assists in reducing health care costs and improving quality of life for individuals with chronic conditions by preventing or minimizing the effects of the disease through integrated care.

Rise in geriatric population and increasing prevalence of chronic diseases acts as driver for the

Chronic Disease Management market. Security concern with cloud based solutions lowers the demand of chronic disease management solution which is restraining the Chronic Disease Management market growth. Surge in novel technological advancement acts as an opportunity for the Chronic Disease Management market. However, lac of accessibility in low and middle income countries acts as challenge for the Chronic Disease Management market growth.

Chronic Disease Management Market Scope and Market Size

The chronic disease management market is segmented on the basis of the type, solution type, service type, disease indication and end user. The growth among segments helps you analyze niche pockets of growth and strategies to approach the market and determine your core application areas and the difference in your target markets.

On the basis of type, the chronic disease management market is segmented into solution and services. In 2021, solution segment is expected to dominate the chronic disease management market due to rising per capita income of Asian countries specially developing countries in Asia-Pacific.

On the basis of solution type, the chronic disease management market is segmented into on-premise solution, cloud-based solution and web-based. In 2021, on-premise solution segment is expected to dominate the chronic disease management market due to rise in demand for advanced chronic disease solutions.

On the basis of service type, the chronic disease management market is segmented into education service, implementation service, consulting service and others. In 2021, implementation services segment is expected to dominate the chronic disease management market due to growing strategic initiative by major key market players.

On the basis of disease indication, the chronic disease management market is segmented into cardiovascular diseases (CVD), diabetes, chronic obstructive pulmonary disorders (COPD), arthritis, asthma, cancer and others. In 2021, cardiovascular diseases (CVD) segment is expected to dominate the chronic disease management market due to rising aging population in countries like China and India which increases the prevalence of cardiovascular diseases (CVD).

On the basis of end user, the chronic disease management market is segmented into healthcare providers, healthcare payers and others. In 2021, healthcare providers segment is expected to dominate the chronic disease management market due to growing healthcare expenditure in Asian countries.

Chronic Disease Management Market Country Level Analysis

The chronic disease management market is analyzed and market size information is provided by the country, type, solution type, service type, disease type and end user as referenced above.

The countries covered in the chronic disease management market report are the China, South Korea, Japan, India, Australia, Singapore, Malaysia, Indonesia, Thailand, Philippines and rest of Asia-Pacific.

China is expected to dominate the market due to rise in prevalence of chronic diseases and geriatric population along with increase in per capita income.

About Data Bridge Market Research, Private Ltd

Data Bridge Market Research Pvt Ltd is a multinational management consulting firm with offices in India and Canada. As an innovative and neoteric market analysis and advisory company with unmatched durability levels and advanced approaches. We are committed to uncovering the best consumer prospects and fostering useful knowledge for your company to succeed in the

market.

Data Bridge Market Research is a result of sheer wisdom and practice that was conceived and built-in Pune in the year 2015. The company came into existence from the healthcare department with far fewer employees intending to cover the whole market while providing the best class analysis. Later, the company widened its departments, as well as expand its reach by opening a new office in the Gurugram location in the year 2018, where a team of highly qualified personnel joins hands for the growth of the company. "Even in the tough times of COVID-19 where the Virus slowed down everything around the world, the dedicated team of Data Bridge Market Research worked round the clock to provide quality and support to our client base, which also tells about the excellence in our sleeve."
