## Behavioral Health Market Size

According to the report, global demand for Behavioral Health Market was valued at approximately USD 2256.6 Million in 2018, and is expected to generate revenue of around USD 4748.9 Million by end of 2025, growing at a CAGR of around 11.22 % between 2018 and 2025.

Behavioral health is the scientific study of the emotional well-being of the feelings, attitudes, and physiology of an individual, their ability to work in daily life, and their sense of self. A person stressed with their behavioral health may experience stress, depression, anxiety, grief, mood disorders, addiction, ADHD or learning disabilities, relationship problems, or other psychological problems. Counselors, therapists, life coaches, counselors, nurse practitioners, or physicians may help with treating behavioral health issues through therapies such as therapy, counseling, or medication. More than a third of adults in the U.S. experience certain kind of behavioral

global demand for Behavioral Health Market is expected to generate revenue of around USD 4748.9 Million by end of 2025, growing at a CAGR of around 11.22 % between 2018 and 2025.”

Drivers:

Global demand for behavioral health services is increasing as a result of the increasing prevalence of mental disorders and increasing demand for behavioral health treatment. Greater understanding and social acceptance of behavioral health concerns is expected to create beneficial business opportunities for behavioral health service providers. New and better psychiatric and detoxification recovery methods have resulted in clinical advancements in rehabilitation and medication management. Virtual therapy and daycare services fuel the growth of the behavioral health industry. New and better psychiatric and detoxification recovery methods have resulted in clinical advancements in rehabilitation and medication management. Virtual therapy and daycare services fuel the growth of the behavioral health industry.

## Market Segmentation

The study provides a decisive view on the Behavioral Health market by segmenting the market based on Disorder Type, end user, and regions. All the segments have been analyzed based on present and future trends and the market is estimated from 2019 to 2025. Based on Disorder Type, the market is segmented into Anxiety Disorder, ADHD, Bipolar Disorders, Alcohol use disorder, Depression, Eating Disorder, Post-traumatic Stress Disorder (PTSD), Substance Abuse Disorder, Schizophrenia, and Others. It is expected that the Anxiety Disorder segment accounts for the maximum share followed by depression in the behavioral health market. Based on Service, the market is segmented into Outpatient Counselling, Intensive Case Management, Home-based Treatment Services, Inpatient Hospital Treatment, Emergency Mental Health services, and Others. The outpatient Counselling segment is anticipated to have the highest growth rate with respect to value.

## Geographical Analysis

The geographical segmentation includes the current and forecast demand for North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. In 2018, North America led the

market with regard to revenue. Europe is closely followed by Asia Pacific as the second largest market. Asia Pacific is expected to experience the fastest growth in the years ahead. In Japan and China, the increasing geriatric population is expected to support regional growth.
