Martin Couper is appointed as the Head of Global Compliance. He is a director-level compliance professional who has held FCA-approved positions for 10 years with successful authorization processes done for several companies both in the UK and overseas.

On the new management team, Eurotrader's founder Dr Ozan Ozerk commented:

"It is a testament to our growth at the Eurotrader Group that we can attract the calibre of people like Marcelo Spina, and it does not end with him. One of Marcelo's strengths has been building strong management teams that have taken companies to the next stages of growth, expansion and valuation. With the new management team that is being built, we will be able to deliver on our vision to modernise an outdated landscape via the latest innovative technologies and to cater to a trader's evolving needs."

Marcelo Spina shares his opinion on the new management team as follows:

"The people are the biggest indicators of success within a company. Having much more than the requisite experience, the team at Eurotrader Group cares about the client and the company with the inherent humanity that comes through in the interactions internally and externally. And when the owner is an enabler of growth who understands the business and the potential, it is much easier to take a company forward."
