"Antiobesity Global Market Report

2022", the antiobesity market is expected to grow from \$2.73 billion in 2021 to \$3.08 billion in 2022 at a compound annual growth rate (CAGR) of 12.9%. The antiobesity market growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The global [antiobesity market size](#) is expected to reach \$4.74 billion in 2026 at a CAGR of 11.4%. Obesity is a major public health concern globally. As a result, the demand for anti-obesity drugs is bound to increase in the future thus, driving the antiobesity market growth.
