

Global Acne Drugs Market Drivers, Trends And Restraints For 2022-2031

Global Acne Drugs Market Report by The Business Research Company covers acne drugs market size, drivers, restraints, key players, and the impact of COVID-19.

LONDON, GREATER LONDON, UK,
September 23, 2022 /

EINPresswire.com/ -- As per The Business Research Company's "Acne Drugs Global Market Report 2022", the

acne drugs market is expected to grow from \$5.03 billion in 2021 to \$5.36 billion in 2022 at a compound annual growth rate (CAGR) of 6.7%. The growth in the acne drugs global market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. As per TBRC's [acne drugs market forecast](#) the market is expected to reach \$6.55 billion in 2026 at a CAGR of 5.2%. An increase in the disposable income of people is one of the major drivers in the acne drugs global market.

Key Trends In The Acne Drugs Market

The presence of alternatives for acne treatment is one of the restraints on the acne drugs global market. Due to availability of multiple alternatives, patients tend to choose one amongst many options on the basis of price, side effects, duration and many more. This increases the competition and hence, the competition cuts down a significant portion of business for the acne drugs global market.

Overview Of The Acne Drugs Market

The acne drugs global market consists of sales of prescription acne drugs (Salicylic acid, Retin-A Micro, Onexton, and Solodyn) and related OTC non-prescription products (cleansers, lotions, gels, toners, masks and pads containing acne drugs-fighting ingredients) which are used to treat skin diseases such as acne drugs vulgaris and acne drugs rosacea. Market in this report does not

include the sales of drugs used for dermatitis and psoriasis.
