We wanted to create an experience that wasn't business and research alone, but one that represented the art, culture, and community that's integral to modern psychedelia, too."

coexist. A wellness area, sound bath, tea lounge, immersive art gallery, and 360-degree visual projections on each of the event's five on-site domes are just a few of the unique features available to attendees.

"When we started envisioning Convergence, we considered all the things we value about events in psychedelics, but felt like something was missing," Moore said. "We wanted to create an experience that wasn't business and research alone - which is the sum of most events these days - but one that represented the art, culture, and community that is integral to modern psychedelia, too."

Convergence winds down with an evening Concert Series, with announced acts including Desert Dwellers, Mystic Grizzly, and Rafeeki.

Additional programming surprises will be announced in the weeks leading up to the event on a rolling basis.
