EINPresswire.com/ -- As per The
Business Research Company's "Anemia
And Other Blood Disorder Drugs
Global Market Report 2022", the

anemia and other blood disorder drugs market is expected to grow from \$10.29 billion in 2021 to \$11.10 billion in 2022 at a compound annual growth rate (CAGR) of 7.8%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The global anemia and other blood disorder drug market size is expected to reach \$14.32 billion in 2026 at a CAGR of 6.6%. The increasing prevalence of anemia among the global population acts as a strong driving factor for the market.
