Key Trends In The Printing Market

The use of digital inkjet printer is on the rise in this market due to its faster printing rate as compared to the traditional printers. Digital inkjet printers are the ones in which characters are formed from minute jets of prints. These are more efficient and reliable than the traditional printers used.

[Overview Of The Printing Market](#)

The printing market consists of sales of printing services by entities (organizations, sole traders and partnerships) that print products such as newspapers, books, labels, business cards, stationery, business forms, and other materials.
