EINPresswire.com/ -- As per The  
Business Research Company's

"Colorectal Cancer Drugs Global Market Report 2022", the colorectal cancer drugs market is expected to grow from \$12.77 billion in 2021 to \$13.60 billion in 2022 at a compound annual growth rate (CAGR) of 6.5%. The growth in the market is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The global colorectal cancer drug market is expected to reach \$16.43 billion in 2026 at a CAGR of 4.9%. The increase in number of colorectal cases will add to the overall size of the global colorectal cancer drugs market.
