According to the latest research by Insightace Analytics, the global ostomy drainage bags market was valued at US\$ 3.27 Billion in 2021. It is expected to reach US\$ 4.80 Billion by 2030, with a CAGR of 4.42% during a forecast period of

emptied at around a third of its capacity. Some ostomates favor using the toilet while seated and emptying between their legs. Urine or stool collection with ostomy drainage bags is typically done following surgery. One advantage could be extended skin barrier wear time, leakage prevention, odor reduction, and simplicity of pouch emptying.

Ostomy drainage bags market competitors consistently concentrate on producing effective and reasonably priced items that will eventually fuel market demand. In addition to creating various items frequently utilized in medical settings, these producers focus on development and innovation, which fuels market expansion. In addition, various industries, including healthcare, are continually working to offer unique products like colostomy bags and ileostomy bags. Therefore, the abovementioned issues raise the demand for ostomy drainage bags for better patient care. Demand for ostomy drainage bags will rise as the senior population with colorectal cancer increases. It is anticipated that the elderly population base will increase significantly more quickly than the younger population. Geriatrics are more prone to chronic diseases than adults since they have a weaker immune system. Additionally, diseases like diabetes and obesity raise the need for ostomy bags.

North America is anticipated to majorly contribute to the ostomy drainage bags market over the forecast years due to the inflated prevalence of chronic diseases in this region. The increasing number of older adults with cancer and other conditions will support regional expansion. Additionally, the presence of numerous manufacturers in this area guarantees the expansion of the sector as a whole, which will fuel growth. In addition, the Asia Pacific ostomy drainage bags market is expected to grow significantly during the forecast period related to the increase in inflammatory bowel disease incidence. In the years to come, it is also projected that the region's market for ostomy drainage bags will expand due to the aging population and rising healthcare infrastructure development costs.

Major market players operating in the ostomy drainage bags market include Coloplast A/S (Denmark), ConvaTec (UK), Hollister Incorporated (US), Welland Medical Limited (UK), Wellspect HealthCare (Sweden), B. Braun Melsungen AG (Germany), Flexicare Medical Limited (UK), Salts Healthcare Limited (UK), Pelcin Healthcare Limited (UK), ALCARE Co., Ltd. (Japan), Romsons (India), Schena Ostomy Technologies, Inc. (US), Torbot Group, Inc. (US), and others.

Recent collaborations and agreements in the market:

- In March 2022, B. Braun decided to sell its hospital and medical services operations in Colombia. The dialysis facilities and about 230 clinical staff members will be transferred to the

regional business Grupo Uros. Over the past eight years, up to 2,000 patients have received top-notch dialysis services from B. Braun.

- In August 2021, three new products from 3M India were released in the automotive market: antimicrobial smoggy, AC vent cleaner and foam, and AC evaporator cleaner. We expect new launches to rise as the economy returns to normalcy.
