The [Global Angiography Devices Market](#) Showcase ongoing analysis report presents the latest insights and the future of the industry, enabling you to spot the items and end customers driving the market revenue trends and profit. Angiography Devices Market Report provides a comprehensive study of the major drivers, economic sector driving players, key fragments and sectors. Apart from that, the specialists have put special emphasis on unique geological regions and introduced a serious situation to help new shareholders, leading economic actors and financial specialists to choose emerging economies. These actions offered in the report would help flagship actors improving Angiography Devices Market.

Data Bridge Market Research analyses that the angiography devices market is expected to undergo a CAGR of 7.07% during the forecast period of 2022-2029.

The global Angiography Devices Market is segmented based on various major players, various

applications, types, and regions.

Leading Key Players:

Abbott (US), B. Braun Melsungen AG (Germany), AngioDynamics (US), Medtronic (Ireland), Shimadzu Corporation (Japan), Cardinal Health. (US), Boston Scientific Corporation (US), Canon Inc. (Japan), Siemens Healthcare GmbH (Germany), Koninklijke Philips N.V. (Netherlands), GENERAL ELECTRIC COMPANY (US), Merit Medical Systems (US), MEDI TECH DEVICES PVT LTD (India)

Product

Angiography Systems
Angiography Contrast Media
Vascular Closure Devices
Angiography Balloons
Angiography Catheters
Angiography Guidewires and Angiography Accessories

Application

Diagnostics
Therapeutics

Leading Market Regions:

- North America Angiography Devices Market (1.USA, 2.Canada, 3.Mexico)
- Europe Angiography Devices Market (1.UK, 2.Germany, 3.France, 4.Spain, 5.Italy, 6.Russia, 7.Rest of Europe)
- Asia Pacific Angiography Devices Market (1st China, 2nd Japan, 3rd South Korea, 4th India, 5th ASEAN, 6th Rest of Asia Pacific)
- Latin America Angiography Devices Market (1st Brazil, 2nd Argentina, 3rd Rest of Latin America)
- Middle East and Africa Angiography Devices Market (1st GCC, 2nd Israel, 3rd South Africa, 4th Rest of MEA)

Angiography Devices Market Dynamics

Drivers

The rise in the prevalence of disorders

Surging prevalence of chronic and acute disorders and diseases all around the globe owing to various internal and external factors is one of the major factors responsible for fostering growth in the demand for angiography devices. In other words, growing incidence rate of cardiovascular diseases will directly propel the market growth rate. According to the World Health Organization, in 2017, cardiovascular diseases account for nearly 17.9 million deaths per year.

Research and development proficiencies

Rising expenditure for research and development proficiencies especially in the developed and developing economies pertaining to the medical instruments and devices will further create lucrative market growth opportunities. Research and development proficiencies have led to the advancements in the medical technology and have improved the quality of healthcare facilities.

Government investments on healthcare infrastructure

The increase in the funding by the federal government is set to drive the demand for angiography devices. Moreover, growth and expansion of healthcare industry being driven by both public and private players especially in the developing economies will create lucrative personal health devices market growth opportunities.
