

Nurse Entrepreneurs Release New Book with Goal to Empower and Impact Healthcare Professionals Throughout the Country

Veronica Southerland, FNP-BC, along with 18 of her Mentor Me nurses announce their newest project A Nurse's Journey To Entrepreneurship.

UNITED STATES, September 8, 2022

/EINPresswire.com/ -- Veronica Southerland, FNP-BC, along with 18 of her Mentor Me nurses announce their newest project A Nurse's Journey To Entrepreneurship. This book is a culmination of decades of work within the nursing industry – from growing up with dreams of nursing to overcoming adversities such as racial disparities, teen pregnancies, and language barriers to see their childhood dreams become a reality. This book will be available for purchase starting September 25, 2022, On Vee The NP Day in Atlanta, Georgia.

In January of 2022, these 18 nurses joined Southerland, also known as Vee The NP, for a six-month intensive business builder program. Throughout this program, these nurses learned high-level business practices plus day-to-day growth tactics. They each are now healthcare business owners in states across the country.

"Creating a business-focused mentorship program for nurses is easy for me, almost a no-brainer," Southerland said. "I'm a serial entrepreneur with quite a few successful businesses in my portfolio. But to me, that doesn't mean much if I'm not teaching my fellow nurses who want options in addition to their bedside role. I've learned A LOT of lessons in my decades of being in business. My calling is to pour out all I've learned."

A Nurse's Journey To Entrepreneurship launch serves as a pinnacle for these nursing professionals. Each of them wrote their own story and allowed it to be woven into the fabric of the story of nurse entrepreneurship.
