The industrial and commercial natural gas distribution market consists of sales of industrial and commercial natural gas distribution by entities (organizations, sole traders, and partnerships) that are used to operate gas distribution systems. Industrial and commercial natural gas refers to natural gas used for industrial and commercial purposes such as steam generation, metal casting, metal tempering, electricity generation, and as a fuel for commercial vehicles.

[Global Industrial And Commercial Natural Gas Distribution Market Trends](#)

The establishment of new city gas distribution plants is the key trend gaining popularity in the industrial and commercial natural gas distribution market. Major companies operating in the market are introducing gas distribution plants in every city to sustain their position in the market. For instance, in January 2022, Bharat Petroleum Corporation Ltd (BPCL), an India-based petrol and gas distribution company, launched city gas distribution networks in 6 cities throughout India, which helps in the easy supply of natural gas. Bharat Petroleum invested INR
