

# Spherical Graphite Market study provides Worldwide Overview and Forecast by 2020-2027

*The global sports analytics market size reached USD 2.20 Billion in 2020 and is expected to register a CAGR of 21.8%, during the forecast period, according to*

VANCOUVER, BC, CANADA, September 8, 2022 /EINPresswire.com/ -- The global [spherical graphite market](#) is projected to be worth USD 9,598.8 Million by 2027, according to a current analysis by Emergen Research. The spherical graphite market is observing a double-digit growth attributed to the

growing demand for consumer electronics products. Spherical graphite, popularly known as battery-grade graphite, finds usage in the consumption as lithium-ion batteries' anode. Rising demand for smart devices such as smartphones, laptops, and various other consumer electronic products is creating a huge demand for lithium-ion batteries owing to its high energy density and better durability.

Additionally, the market for lithium-ion batteries is propelled by the rising demand for electric and hybrid electric vehicles that make extensive use of lithium-ion batteries, which, in turn, is causative of the significant market demand for spherical graphite.

The key factors hindering the expansion of the autonomous cars market is cybersecurity and the safety precautions surrounding it. Although the self-driving car market has enormous growth potential, many purchasers don't seem to be quite able to deliver the keys because of the threat of hackers as they're tend to take control of data during various situations as well as set destinations that is likely to threaten the privacy of passengers.

## Key Market Competitors Profiled in the Report:

Black Rock Mining  
Imerys Graphite & Carbon  
Qingdao Yanxin Graphite Products Company Limited  
Yingkou Botian Material Technology Limited Company  
Aoyu Graphite Group  
Focus Graphite Inc.  
Battery Minerals Limited  
Jixi BTR Graphite Industrial Park Co. Ltd.  
Syrah Resources Limited  
Qingdao Black Dragon Graphite Group  
others.

Emergen Research has segmented the global spherical graphite market on the basis of product type, distribution channel, application, and region:

### Product Type Outlook (Revenue, USD Billion; 2017-2027)

Natural  
Synthetic

### Distribution Channel Outlook (Revenue, USD Billion; 2017-2027)

Online  
Offline

### Application Outlook (Revenue, USD Billion; 2017-2027)

Consumer Electronics  
Transportation Batteries  
Energy Storage

### Regional Outlook (Revenue, USD Billion; 2018–2028)

#### North America

U.S.  
Canada  
Mexico  
Europe

Germany  
France  
U.K.

Italy  
Spain  
BENELUX  
Rest of Europe  
Asia Pacific

China  
India  
Japan  
South Korea  
Rest of APAC  
Latin America

Brazil  
Rest of LATAM  
Middle East & Africa

Saudi Arabia  
UAE  
South Africa  
Turkey  
Rest of MEA

The global Spherical Graphite market report evaluates the latest economic scenario in terms of value and volume. It highlights the key growth drivers, restraints, production capacity, demand & supply ratio, import/export status, growth rate, and other critical aspects. Additionally, the report also performs SWOT analysis, Porter's Five Forces analysis, speculation attainability investigation, and venture return investigation.

Key Objectives of the Global Spherical Graphite Market Report:

In September 2020, Imerys made an announcement about its decision to expand the capacity of its Bodio manufacturing facility, Switzerland, for the production of synthetic graphite. The decision is intended to cater to the escalating demand from the producers of lithium-ion batteries in Asia, North America, and Europe.

Natural flake graphite has the capability to disrupt the usage of synthetic graphite as the major raw material to produce spherical graphite. This is due to the substantial cost benefits offered by natural flake graphite to help battery manufacturers to decrease the overall production cost of lithium-ion batteries.

China, in terms of production, dominated the global spherical graphite market.

The spherical graphite market in Europe is observing high demand attributed to the surging

demand for battery electric vehicles and hybrid electric vehicles, as well as rising demand for consumer electronics products.

About Us:

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyse consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
