

Mesothelioma Options Help Center of Wisconsin - The Steinberg Law Group - Mesothelioma & Asbestos Lung Cancer Lawyers

Mesothelioma & Asbestos Lung Cancer Lawyers - The Steinberg Law Group - Jointly Responsible for Over \$500,000,000 in Verdicts & Settlements Since 2001

MILWAUKEE, WISCONSIN, USA, September 8, 2022 /EINPresswire.com/ -- Our [Mesothelioma](#) Options Help Center of Georgia is dedicated to providing top quality legal and medical assistance to those stricken with mesothelioma or [asbestos](#)-related [lung cancer](#). Anyone wishing to discuss their legal and/or medical options should call (888) 891-2200 to speak directly with an attorney from the Steinberg Law Group.

The Steinberg Law Group has decades of proven experience and the resources to help veterans obtain the financial compensation they deserve. All of it.

The Steinberg Law Group has decades of experience in handling mesothelioma and other asbestos-related cases. With offices in New York, California and Texas, the Steinberg Law Group has a national footprint that helps win the best possible financial compensation for clients.

Typically, asbestos exposure will have occurred sometime between the 1950s and the 1980s. Some of the most prevalent professions that encountered large quantities of asbestos include power plant workers, maritime workers, industrial workers, plumbers, pipefitters, electricians, mechanics, machinists, miners, railroad workers and construction workers, to name a few. Since the latency period for mesothelioma patients is approximately 40 years, most people diagnosed with mesothelioma or asbestos-related lung cancer in 2022 were exposed decades ago.

Although there are only two known asbestos deposits in Wisconsin, residents of the state are at an elevated risk of developing mesothelioma due to industries such as paper manufacturing,

metal works and shipbuilding. Most of Wisconsin's asbestos-related deaths occur in and around Milwaukee due to the city's long history with the paper industry.

Jobsites and locations with known asbestos exposure in Wisconsin include, but are not limited to, Appleton Woolen Mills, Marathon Paper Mills, Freedom High School, Oshkosh State College, Southwest Elementary School, St. Bernadette School, St. Therese School, Beloit College, Beloit Memorial Hospital, Converse School, Brookfield High

School, New Junior High School, Burlington Junior High School, Cassville Powerhouse, Nelson Dewey Station, Trinity Hospital, Wisconsin School for the Deaf, Luther Hospital, University of Wisconsin – Eau Claire, Goodrich High School, Alverno College, Case High School, Clintonville High School, Dane County Coliseum, Forest Home Cemetery, Forest Home Avenue School,

“

There is an irrefutable association between asbestos and cancer. This association has been established for cancer of the lung and for mesothelioma.”

1964 report commissioned by Philip Carey Manufacturing
