

Computer Aided Detection Market Detailed In Industry Analysis Report 2022 | GE Healthcare, Philips Healthcare, Hologic

SEATTLE, UNITED STATES, UNITED STATES, September 9, 2022

/EINPresswire.com/ -- The new report titled 'Global [Computer Aided Detection Market](#) Size, Share, Price, Trends, Growth, Report and Forecast 2022-2028' by Coherent Market Insights provides an in-depth analysis of the global Computer Aided Detection Market, evaluating the market based on historical and forecast market data, demand, application details, price trends, and company shares of the leading industries by geography. Advanced

digital imaging techniques have enhanced the effectiveness and efficiencies of CAD solutions. Easy integration with various imaging equipment is helping with early detection of chronic diseases. It has applications in clinical and research and development activities. Medical tourism is also boosting the adoption of CAD. Gradual increase in demand for Health Insurance, which requires pre-screening of chronic diseases is driving the growth of CAD market. Major investments in R&D of Computer Aided Detection with 3D imaging are providing opportunities for growth of the market. High cost is the challenge for growth of CAD market.

Computer Aided Detection Market

Increasing number of patients opting for diagnostic imaging techniques is expected to propel the volume of image data to be analyzed. It is a diagnostic analysis technology, which assists physicians in reducing detection errors. CAD software is helpful in diagnosis of several diseases, such as cancer, coronary artery disease, cardiovascular diseases, and neurological diseases through imaging modalities, such as X-Rays imaging, Magnetic Resonance Imaging ultrasound imaging, and computed tomography. It helps in accurate detection of chronic diseases in early stages, reducing mortality rates due to cancer, cardiovascular, and neurological diseases.

Competitive Analysis: Global Computer Aided Detection Market

GE Healthcare, Philips Healthcare, Hologic, Inc., iCAD, Agfa-Gevaert N.V., EDDA Technology, Fujifilm Medical System, Invivo Corporation, Hitachi Medical Corporation, and Siemens Healthineers.

Detailed Segmentation:

On the basis of application, the global computer aided detection in healthcare market can be segmented as.

Lung cancer
Breast cancer
Liver cancer
Bone cancer
Prostate cancer
Colorectal cancer
Others (Cardiovascular and Neurological Indications etc.)

Based on application breast cancer segment represent largest share in global Computer Aided Detection market due increasing incidence of breast cancer. According to the World Health Organization (WHO), breast cancer is more common in women globally.

On the basis of imaging modalities, the global Computer Aided Detection market in healthcare market can be segmented as

Ultrasound imaging
Mammography
Tomosynthesis
Computed tomography
Magnetic resonance imaging

Geographical Segmentation:

- » North America: United States, Canada, and Mexico
- » South America & Central America: Argentina, Chile, Brazil and Others
- » Middle East & Africa: Saudi Arabia, UAE, Israel, Turkey, Egypt, South Africa & Rest of MEA.
- » Europe: UK, France, Italy, Germany, Spain, BeNeLux, Russia, NORDIC Nations and Rest of Europe.
- » Asia-Pacific: India, China, Japan, South Korea, Indonesia, Thailand, Singapore, Australia and Rest of APAC.

Key Drivers & Barriers:

This report has looked at high-impact rendering elements and causes to help readers comprehend the overall trend. Furthermore, the report contains constraints and obstacles that may operate as roadblocks for the players. This will enable people to pay attention and make well-informed business judgments. Specialists have also focused on future business opportunities.

Competitive Outlook:

Company profiles, revenue sharing, and SWOT analyses of the major players in the Computer Aided Detection Market are also included in the research. The Computer Aided Detection industry research offers a thorough examination of the key aspects that are changing, allowing you to stay ahead of the competition. These market measuring methods assist in the identification of market drivers, constraints, weaknesses, opportunities, and threats in the global market.

Key Reasons to Buy this Report:

- Use of current statistics gathered by our own researchers. These provide you historical and projected data that is evaluated to inform you why the Computer Aided Detection Market is changing - this allows you to anticipate market changes and stay ahead of your competition.
- You'll be able to quickly pinpoint the information you need thanks to the concise analysis, clear graph, and table style.
- Denotes the area and market segment that is likely to expand the fastest and dominate the market.
- A geographical analysis showing the consumption of the product/service in each region as well as the variables impacting the market within each region
- Comprehensive company profiles for the major market players, including company overviews, company insights, product benchmarking, and SWOT analysis for the major market players, as well as new service/product launches, partnerships, business expansions, and acquisitions in the last five years of companies profiled.
- The industry's present and future market outlook, including recent changes such as growth possibilities and drivers, as well as challenges and restraints in both emerging and developed markets.

- Porter's five forces analysis is used to provide an in-depth examination of the market from numerous angles.
- Provides industry understanding via Value Chain - Market Dynamics scenario, as well as market development potential in the next years

FAQ'S:

- What will be the size of the markets and the pace of growth in 2028?
- What are the main factors driving the global market?
- What are the most important market trends influencing global market growth?
- What are the obstacles to market expansion?
- Who are the major providers to the worldwide market?
- What are the opportunities and obstacles for sellers on the global market?
- What are the main findings of the five-point study of the worldwide Computer Aided Detection Market?

Table Of Content:

1. Research Objectives and Assumptions

- Research Objectives
- Assumptions
- Abbreviations

2. Market Purview

- Report Description
 - Market Definition and Scope
- Executive Summary
 - Market Snippet, By Type
 - Market Snippet, By Application
 - Market Snippet, By Region
- Coherent Opportunity Map (COM)

3. Market Dynamics, Regulations, and Trends Analysis

- Market Dynamics
 - Drivers
 - Restraints
 - Market Opportunities

About us:

Coherent Market Insights is a global market intelligence and consulting firm that offers syndicated and customised research reports as well as consulting services. We're known for our actionable insights and reliable reports in a wide range of industries, including aerospace and defence, agriculture, food and beverage, automotive, chemicals and materials, and virtually every other domain and sub-domain imaginable. Our clients benefit from our highly reliable and accurate reports. We're also committed to continuing to provide measurable, long-term results for our clients after COVID-19 by playing a leading role in providing insights into various sectors.
